

SYSTEM INFORMATION

PRSTM PARAPET ROOF SYSTEM

Evolution in Wood-Framed Structure.®

PRSTM STRONG

- Exceeds the capacity of standard commodity prefabricated wood truss roof systems

PRSTM SIMPLE

- Integrates flat roof with parapet walls thus eliminating varying details and framing methods

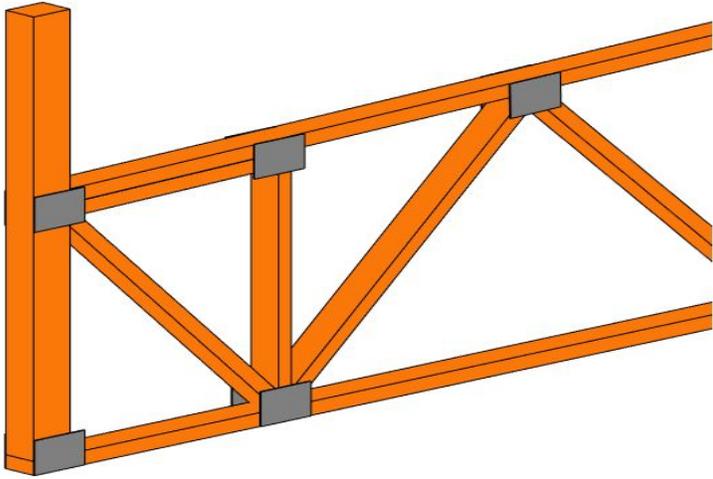

PRSTM SUPPORTED

- Complete design support and engineering for entire roof above plateline

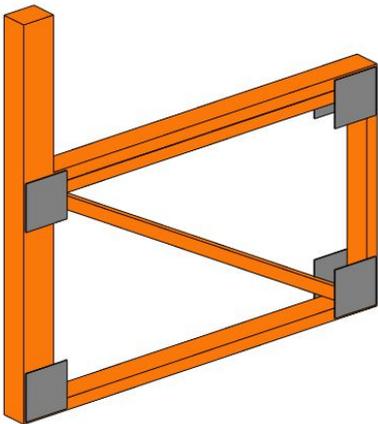

PRSTM SUSTAINABLE

- Engineered Lumber as primary subcomponents (Sustainable Forest Initiative)

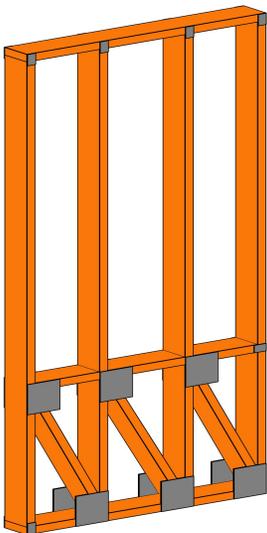

STRONG

G2T™ Wood Open-Web Truss

G2T-J™ Jack Truss

PSP™ Parapet Shear Panel

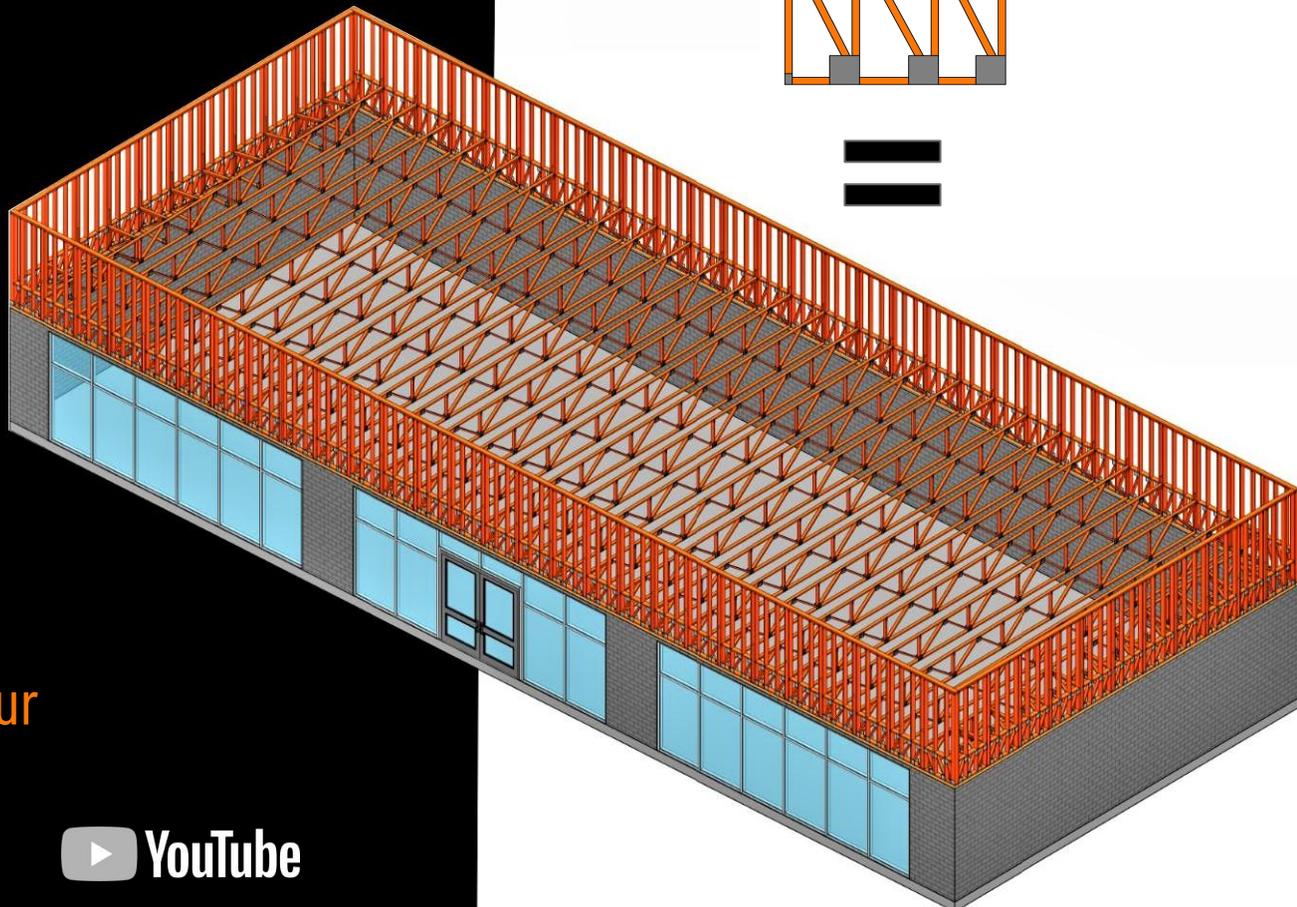

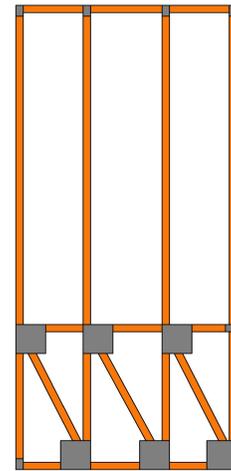

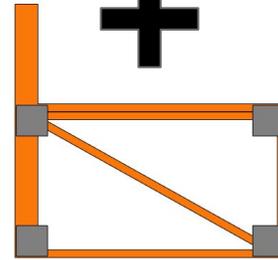

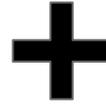

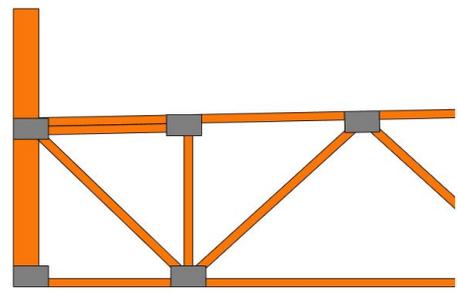

- High-Strength Commercial Truss for long span w/ 48" o.c. spacing
- Parapet Anchor Leg (PAL™) for integration of roof truss to Parapet Shear Panel (PSP™)
- Ready for Plant-On Canopies

- Increases the strength of parapet walls to assist in eliminating costly kickers

- Factory fabricated parapet wall panel solves for bending and shear (no kickers!)

SIMPLE

- 48" o.c. system allows for flexible roof penetrations, reduces sub-trade coordination
- Standardized parapet attachment and bearing around the entire structure
- System is easy to erect and does not require journeyman labor

Watch How our
PRS™ Comes
Together:

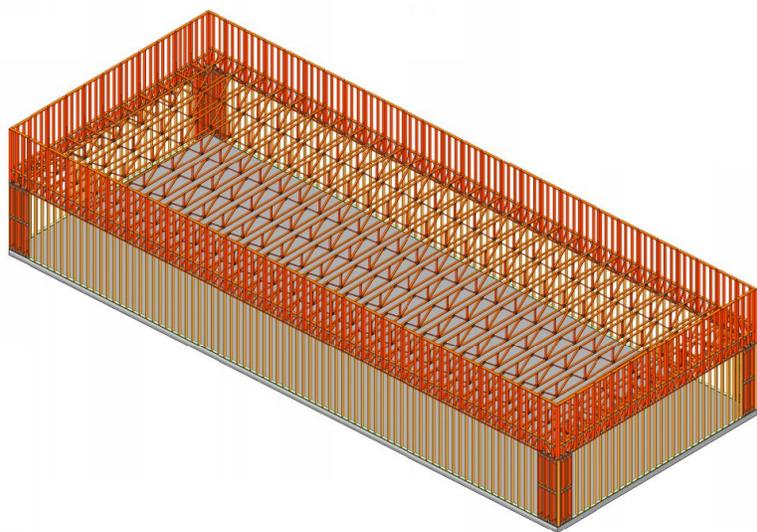

SUPPORTED

When licensed to specify the G2 National PRS™ Architects receive:

- Complete design support for entire roof above plateline
- Elimination of Deferred Submittals (Pull a complete structural shell permit)
- Production Drafting for your EOR at fair market rates
- Industry Leading Production Lead Times
- 3rd Party Testing Support
- 9 Sales & Manufacturing Plants across the country

Less RFI's = Happy Everyone!

SUSTAINABLE

- A commitment to providing customers with efficient system designs, maximizing strength while minimizing material. G2 sources most major components from sustainable material suppliers
- LP Building Products, a prime supplier to G2 National, is certified in all three Sustainable Forest Initiative (SFI) Standards
- Roseburg Forest Products, a prime supplier to G2 National, provides an Environmental Product Declaration (EPD) for its LVL

G2 NATIONAL
